

### Features

- On-state RMS current,  $I_{T(RMS)}$  12 A
- Repetitive peak off-state voltage,  $V_{DRM}$  and  $V_{RRM}$  600 V, 800 V and 1000 V
- Triggering gate current,  $I_{GT}$  5 mA or 15 mA

### Description

The standard 12 A SCR series is suitable to fit all modes of control, found in applications such as overvoltage crowbar protection, motor control circuits in power tools and kitchen aids, inrush current limiting circuits, capacitive discharge ignition and voltage regulation circuits.

Available in through-hole or surface-mount packages, they provide an optimized performance in a limited space.
