

4-CH Linear Constant Current Sink With Matching**AP2502****General Description**

The AP2502 is a 4-channel independent linear current sink with low dropout voltage and perfect match between each channel. Each channel can provide 20mA continuous constant current.

In application, there is only one 0.1 μ F ceramic capacitor required, and there is no any EMI and switching noise issue. It is perfect choice for hand-hold portable system especially based on Li-ion/Polymer battery powered display module.

The brightness can be controlled and/or adjustable via simple PWM signal applied to EN pin.

The AP2502 is available with SOT-23-6 and TSOT-23-6 packages.

Features

- Current Matching Between Each Channel: $\pm 1\%$
- Low Dropout Voltage: 65mV (Typ.) @ $I_{LED}=20\text{mA}$
- Maximum Output Current on Each Channel: 20mA
- Ultra-low Quiescent Current: 125 μ A (Typ.)
- Ultra-low Shutdown Current: 1 μ A (Max.)
