

3000W PowerVerter Compact Inverter for Trucks with 4 Outlets

MODEL NUMBER: PV3000HF

Description

Utilize your vehicle's battery to efficiently power office equipment on the road or power tools at a work site. Continuously supplies up to 3000 watts of 120V AC power to 4 AC outlets from any 12V battery or automotive DC source. Includes a PV remote and 25 feet of cable. Compact, lightweight metal case design is among the smallest, most rugged inverters available at this power level.

NOTE: To protect against high current draw that may occur during inverter failure, two fuse links rated at 250a each should be positioned no more than 18" from the PV3000HF's battery in each positive line.
