

Pt Temperature Sensor – PTF Family

- Conformal to standard platinum temperature sensors according DIN EN 60751
- R_0 : 100 and 1000 Ω
- Class F 0.1 (T = AA), F 0.15 (A), F 0.3 (B) and F 0.6 (C) accuracy
- Wide temperature range
- Different outline dimensions
- Global interchangeability

DESCRIPTION

The PTF-sensor family combines a group of resistance temperature detectors (RTD) using a Platinum resistor in thin film technology as sensing element. It consists of a structured platinum film on a ceramics substrate, passivated by glass coating. The connection wires are protected with glass on the welding area.

The characteristic curve of this Platinum RTD complies with DIN EN 60751. The usage of Platinum as resistive material guarantees high long term stability.

Due to small outline and low mass this RTD has a low time constant; therefore it is a suitable solution for fast and precise feedback control systems.

FEATURES

Conformal to DIN EN 60751
 Wide temperature range: -50 ... +600 °C (Ni/Au wire and Class F 0.3, Ag-Wire versions are limited to 300 °C)
 Standard nominal resistances values:
 R_0 : 100 and 1000 Ω (other on request)
 Class F 0.1 (T = AA), F 0.15 (A), F 0.3 (B) and F 0.6 (C) accuracy
 Low drift over lifetime
 Fast response time because of low thermal mass
 Different outline dimensions available to fit a wide range of space requirements
 Global interchangeability

APPLICATIONS

Temperature feedback control
 White goods
 Industrial applications
 Automotive
 Medical
 Sensing element for plug-in probes

Pt Temperature Sensor – PTF Family

PERFORMANCE SPECS

| Parameter | Symbol | Condition | Min. | Typical | Max. | Unit |
|--|--------------------|--|----------------|---------------------------|--------------------------|--------|

CALCULATION FORMULAS

The calculation formulas of Pt-RTDs are defined in DIN EN 60751 as following:

For T ≥ 0 °C:

$$R(T) = R(0) * (1 + a * T + b * T^2)$$

For T < 0 °C:

$$R(T) = R(0) * [1 + a * T + b * T^2 + c * (T - 100 °C) * T^3]$$

Coefficients:

$$\begin{aligned} a &= 3.9083E-03 \\ b &= -5.775E-07 \\ c &= -4.183E-12 \end{aligned}$$

Tolerances:

| | | |
|-----------------------|---------------------------|----------------|
| Class F 0.1 (T = AA): | ± (0.10+0.0017* T/°C) °C | (-30..+200 °C) |
| Class F 0.15 (A) | ± (0.15+0.002* T/°C) °C | (-30..+300 °C) |
| Class F 0.3 (B): | ± (0.30+0.005* T/°C) °C | (-50..+600 °C) |
| Class F 0.6 (C): | ± (0.60+0.01* T/°C) °C | (-50..+600 °C) |

Компания «Океан Электроники» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Поставка оригинальных импортных электронных компонентов напрямую с производств Америки, Европы и Азии, а так же с крупнейших складов мира;
- Широкая линейка поставок активных и пассивных импортных электронных компонентов (более 30 млн. наименований);
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Помощь Конструкторского Отдела и консультации квалифицированных инженеров;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Поставка электронных компонентов под контролем ВП;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- При необходимости вся продукция военного и аэрокосмического назначения проходит испытания и сертификацию в лаборатории (по согласованию с заказчиком);
- Поставка специализированных компонентов военного и аэрокосмического уровня качества (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Actel, Aeroflex, Peregrine, VPT, Syfer, Eurofarad, Texas Instruments, MS Kennedy, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Компания «Океан Электроники» является официальным дистрибьютором и эксклюзивным представителем в России одного из крупнейших производителей разъемов военного и аэрокосмического назначения «JONHON», а так же официальным дистрибьютором и эксклюзивным представителем в России производителя высокотехнологичных и надежных решений для передачи СВЧ сигналов «FORSTAR».

JONHON

«JONHON» (основан в 1970 г.)

Разъемы специального, военного и аэрокосмического назначения:

(Применяются в военной, авиационной, аэрокосмической, морской, железнодорожной, горно- и нефтедобывающей отраслях промышленности)

«FORSTAR» (основан в 1998 г.)

ВЧ соединители, коаксиальные кабели,
кабельные сборки и микроволновые компоненты:

(Применяются в телекоммуникациях гражданского и специального назначения, в средствах связи, РЛС, а так же военной, авиационной и аэрокосмической отраслях промышленности).
