

# VE880 Series

## Dual Channel Automatic Battery Switching (ABS) VoicePort™ Device Le88221/241

### APPLICATIONS

- Voice enabled Cable and DSL Modems
- Voice over IP/ATM - Integrated Access Devices (IAD)
- Smart Residential Gateways (SRG) and Routers
- Media Terminal Adapters (MTA) Standalone & Embedded
- Fiber to the User/Premise/Home (FTTH/P/H), Fiber in the Loop (FITL) Optical Network Terminals (ONT)
- Wireless Local Loop (WLL), PBX, ISDN NT1/TA
- Set-Top Box, Home Side Box

### FEATURES

- **Complete BORSCHT function in a single VoicePort™ device for two channels**
  - Battery Feed, Over-voltage support, integrated Ringing, line Supervision, Codec, Hybrid (2W/4W), Test
  - Small footprint package - Exposed pad 80-pin LQFP
  - Minimal external discrete components required
- **Integrated Power Management**
  - Integrated high voltage switching regulator controllers
    - Wide input voltage range (VSW = +3.3V to +35 V)
    - Generates supplies for VBH, VBM & VBL
  - Low power Idle and On-hook transmission states
- **Ringing**
  - 5 REN with pin for pin compatible 100-V (Le88221) and 120-V (Le88241) devices
  - Up to 110-Vpk internal balanced sinusoidal or trapezoidal ringing with programmable DC offset
  - Unbalanced ringing for PBX trunk compatibility (Le88241 device)
- **Pin selectable PCM/MPI or GCI interface**
- **Worldwide Programmability**
  - Two-wire AC impedance, Balance Impedance, Gain
  - DC feed voltage and current limit
  - Ringing frequency, voltage and current limit
  - 12 kHz and 16 kHz Metering
  - Programmable loop closure and ring trip thresholds
- **G.711  $\mu$ -law, A-law, or 16 bit linear coding**
- **Powerful signal generator**
  - Universal Caller ID generation
  - Up to 4 simultaneous tones
  - Automatic cadencing feature
- **Subscriber Loop Test/Self Test support**
  - Comprehensive line sensing
  - Integrated self test capabilities
  - Line fault detection and reporting
    - Loop supervision, AC/DC faults
  - Test load switch (Le88241)
- **Integrated 150 mW 3-V or 5-V Relay Driver**
- **Pin-compatible wide band version available (16-kHz sampling mode)**

### ORDERING INFORMATION

| Device     | Package                       |
|------------|-------------------------------|
| Le88221DLC | 80-pin eLQFP (Green package*) |
| Le88241DLC |                               |

\*Green package meets RoHS Directive 2002/95/EC of the European Council to minimize the environmental impact of electrical equipment.

### DESCRIPTION

The Zarlink dual-channel Le88221/241 Automatic Battery Switching (ABS) VoicePort™ device implements a dual-channel telephone line interface by providing all the necessary voice interface functions from the high voltage subscriber line to the  $\mu$ P/DSP digital interface. The ABS device can operate from external battery supplies, or from supplies generated by the on chip switching regulator controllers. This device reduces system level cost, space, and power by achieving the highest level of voice integration possible. Designers benefit by having a simple, cost effective, low power and dense, interface design without sacrificing features or functionality. The programmable, feature rich VoicePort devices provide a highly functional line interface which meets the requirements of short and medium loop (up to 1500 Ohms total at 1 REN) applications. Features include: high voltage switching regulator, self-test, line test capabilities, integrated ringing (up to 110-Vpk), worldwide software programmability, flexible signal generator with tone cadencing, caller ID generation and all BORSCHT functions. These VoicePort device features are crucial for designing cost-effective, full-featured Voice over Broadband solutions.

### VOICEPORT™ DEVICE BLOCK DIAGRAM

| FEATURES   | BENEFITS   |
|--|--|
| • Highest level of integration                       | • Reduces system BOM and discrete component count  |
| • Smallest footprint                                 | • Saves board space  |
| • Pin-compatible options                             | • Provides design flexibility to develop one design and populate the voice socket with the right features for a given market—100 V or 120 V, narrow band or wide band, internal balanced (sinusoidal or trapezoidal) or unbalanced ringing |
| • Lowest power solution across all operating modes   | • Provides best solution for battery-backed and power-sensitive applications   |
| • Highly programmable                                | • Offers design flexibility to develop one application for worldwide markets   |
| • Integrated ring cadencing and system state control | • Reduces real-time software overhead  |
| • Comprehensive line sensing                         | • Enables high performance 909 diagnostics and subscriber loop test and self test support  |
| • Integrated switching regulator                     | • Enables lowest component count and highest efficiency in all states of operation   |

Компания «Океан Электроники» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Поставка оригинальных импортных электронных компонентов напрямую с производств Америки, Европы и Азии, а так же с крупнейших складов мира;
- Широкая линейка поставок активных и пассивных импортных электронных компонентов (более 30 млн. наименований);
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Помощь Конструкторского Отдела и консультации квалифицированных инженеров;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Поставка электронных компонентов под контролем ВП;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- При необходимости вся продукция военного и аэрокосмического назначения проходит испытания и сертификацию в лаборатории (по согласованию с заказчиком);
- Поставка специализированных компонентов военного и аэрокосмического уровня качества (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Actel, Aeroflex, Peregrine, VPT, Syfer, Eurofarad, Texas Instruments, MS Kennedy, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Компания «Океан Электроники» является официальным дистрибьютором и эксклюзивным представителем в России одного из крупнейших производителей разъемов военного и аэрокосмического назначения «JONHON», а так же официальным дистрибьютором и эксклюзивным представителем в России производителя высокотехнологичных и надежных решений для передачи СВЧ сигналов «FORSTAR».

## JONHON

«JONHON» (основан в 1970 г.)

Разъемы специального, военного и аэрокосмического назначения:

(Применяются в военной, авиационной, аэрокосмической, морской, железнодорожной, горно- и нефтедобывающей отраслях промышленности)

«FORSTAR» (основан в 1998 г.)

ВЧ соединители, коаксиальные кабели, кабельные сборки и микроволновые компоненты:

(Применяются в телекоммуникациях гражданского и специального назначения, в средствах связи, РЛС, а так же военной, авиационной и аэрокосмической отраслях промышленности).
