THT.40**

series

INTRODUCTION

This catalogue features 6 series of high voltage coaxial connectors from the miniature M - HT series up to the large THT - 40 series, varying in voltage from withstanding continuous voltages from 10 000 V to 40 000 V.

TEST VOLTAGES

The test voltages quoted in this catalogue are given as an indication only. The figures correspond to those made under normal atmospheric conditions during a test period of 1 minute as specified in the French standard NF - C - 20 600.

OPERATING VOLTAGES

The operating voltage chosen is the responsibility of the user depending on the conditions under which the connectors are to be used (environmental, safety factor, etc. . .). The cables listed on page 4 are recommended for their mechanical and dimensional suitability with our connectors. As to the electrical characteristics of the cables and in particular the maximum voltage capability, it is necessary to conform with the recommendations of the cable manufacturer.

CABLES SUITABLE

The cable groups are classified by ext. dia (mm) / impedance (Ω)

Other special cables, not listed below can also be used with certain connector series.

HIGH VOLTAGE COAXIAL CONNECTORS

M.HT SERIES

R 310 ...

GENERAL CHARACTERISTICS

Miniature connectors designed with a dual operation coupling and locking mechanism.

- 1 - Automatic latching with low force push fit
- 2 - The connector coupling nut is then pushed forward, clamping the latching mechanism and locking the connectors. They can be seen to be locked as part of the black washer underneath the coupling nut is visible after the coupling nut has been pushed forward to lock the connectors.

Demating (and unlatching) is effected by a simple pulling movement of the coupling nut.

Materials : metal parts : brass and heat treated beryllium
insulators : PTFE and silicone rubber
plating : centre contacts gold - other pieces : NSR nickel

ELECTRICAL CHARACTERISTICS

Frequency range	:	0 - 2 GHz		
Test voltage	:	unmated connectors : 6 000 V D.C.	For Filotex cable 38421	2000 V DC For other 2000 V DC cables
	:	mated pair : 20 000 V D.C.		
Current rating	:	5 A max.		

MECHANICAL AND ENVIRONMENTAL CHARACTERISTICS

Life : 500 matings min.
Temperature range : $-50^{\circ}\text{C} + 125^{\circ}\text{C}$
Splashproof
Salt spray : 96 H

HIGH VOLTAGE COAXIAL CONNECTORS

BNC.HT series

R 316 ...

GENERAL CHARACTERISTICS

The connectors of this series are not intermateable with those of the BNC and SHV series.
2 pip bayonet coupling.

Materials : contacts and interfaces : brass and heat treated beryllium copper
other metal parts : brass
insulators : P.T.F.E. (styles R 316 780 and R 316 770, insulator polyethylene)
gaskets : silicone rubber (styles R 316 780 and R 316 770, neoprene rubber)
plating : NSR nickel - centre contacts, gold

ELECTRICAL CHARACTERISTICS

Test voltage : unmated connectors : male : 6 000 V D.C.
female : 8 000 V D.C.
mated pair : 10 000 V D.C.
Impedance : 50 Ω
Frequency range : 0 - 2 GHz
V.S.W.R. : 1.20 +0.2 F (GHz) (plug and jack)
Current rating : 10 A

MECHANICAL AND ENVIRONMENTAL CHARACTERISTICS

Life : 500 mating
Vibration : 20 g - 2 000 Hz
Shock : 50 g
Salt spray : 48 H
Temperature range : - 55°C +155°C (except styles with polyethylene insulator) :
- 40°C + 70°C

HIGH VOLTAGE COAXIAL CONNECTORS

SHV series

R 317 ...

These safe high voltage connectors meet all requirements of the NIM Standard (Nuclear Instrumentation Module) Specification ND 545 Amendment A. Both the pin and socket contacts are securely recessed inside the insulation to prevent the danger of electrical shock when live unmated connectors are handled. They are particularly recommended for impulse circuits of linear accelerators as well as in military, nuclear and medical electronics.

In general, this series should be considered for use where the user is anxious to work under conditions of guaranteed safety.

GENERAL CHARACTERISTICS

These connectors are not intermateable with those of the BNC and BNC.HT series. 2 pip bayonet coupling.

Materials	:	contacts and interfaces	:	heat treated beryllium copper
		other metal parts	:	brass
		insulators	:	P.T.F.E. or polyethylene
Plating			:	NSR nickel-centre contacts, gold

ELECTRICAL CHARACTERISTICS

HIGH VOLTAGE COAXIAL CONNECTORS

THT.20 series

R 331 ...

GENERAL CHARACTERISTICS

- Screw coupling.
- Female centre contact has a 4 mm internal dia. which allows testing with standard banana plugs.
- Materials : metal parts : brass and heat treated beryllium copper
insulators : P.T.F.E. - polyethylene or polystyrene
gaskets : silicone rubber
- Plating : NSR nickel - centre contacts, gold

ELECTRICAL CHARACTERISTICS

- Test voltage : unmated connectors : 10 000 V D.C.
mated pair : 20 000 V D.C.
- Impedance : 50 Ω
- Frequency range : 0 - 1 GHz
- Current rating : 20 A.

MECHANICAL AND ENVIRONMENTAL CHARACTERISTICS

- Life : 500 matings
- Salt spray : 48 H
- Splashproof
- Temperature range : - 40°C + 70°C (polyethylene or styramic insulators)

R 331 218	Cable clamp	10/50 10/75 11/50 11/75	11,2	K13-77		80
R 331 268*	Square flange mounting - cable clamp	10/50 10/75 11/50 11/75	11,2	K13-77	a 31 a 34	88
R 331 323	Bulkhead mounting panel seal - cable clamp	11/75			e 12	95

• Manufactured upon request.

THT.20 series

CODE No.	STYLE	Cable group Ω	max. $\varnothing_a$	Assembly code	Panel piercing	Weight (g)
----------	-------	-------------------------	-------------------------	---------------	----------------	------------

RECEPTACLES

R 331 405	Square flange - P.T.F.E. insulator				a31-a34	73
R 331 603	Bulkhead, panel seal P.T.F.E. insulator				J7	75

ARMoured CABLE CLAMP

R 280 115*	Other ref. MX. 564 A/U	For armoured cables this cable clamp is fitted in place of the connector back nut.				27
------------	---------------------------	--	--	--	--	----

CAP

R 331 803	For THT 20 female connectors	This cap and chain ensures a dust and watertight seal and electrical insulation when mated. The body of these caps is entirely made of styramic plastic.				20
-----------	------------------------------------	--	--	--	--	----

THT.20.B series

THT 20 B bayonet coupling version of THT 20 are not used to such a large extent as the THT 20 series. It is Radiall's intention to withdraw this series from our range. We suggest that you consider using the THT 20 series which are very similar except for the method of coupling and offer the same performance.

For existing users, we are continuing to hold stocks of these connectors but we ask you to take this information into consideration when specifying these series for future use.

THT 20 - THT 20 B EQUIVALENT CROSS REFERENCE LIST.

HIGH VOLTAGE COAXIAL CONNECTORS

THT.40 series

R 346 ...

GENERAL CHARACTERISTICS

Materials	: metal parts	: brass
	insulators	: high voltage polyethylene
Plating		: NSR nickel - centre contact, gold

ELECTRICAL CHARACTERISTICS

Test voltage	: unmated connectors	: 10 000 V D.C. -
	mated pairs	: 40 000 V D.C. -
Impedance		: 50 Ω
Frequency range		: 0 - 700 MHz
Current rating		: 25 A

MECHANICAL AND ENVIRONMENTAL CHARACTERISTICS

Life	: 500 matings
Temperature range	: - 40°C + 70°C
Splashproof	
Salt spray	: 48 H

COAXIAL CABLES SUITABLE

Компания «Океан Электроники» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Поставка оригинальных импортных электронных компонентов напрямую с производств Америки, Европы и Азии, а так же с крупнейших складов мира;
- Широкая линейка поставок активных и пассивных импортных электронных компонентов (более 30 млн. наименований);
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Помощь Конструкторского Отдела и консультации квалифицированных инженеров;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Поставка электронных компонентов под контролем ВП;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- При необходимости вся продукция военного и аэрокосмического назначения проходит испытания и сертификацию в лаборатории (по согласованию с заказчиком);
- Поставка специализированных компонентов военного и аэрокосмического уровня качества (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Actel, Aeroflex, Peregrine, VPT, Syfer, Eurofarad, Texas Instruments, MS Kennedy, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Компания «Океан Электроники» является официальным дистрибьютором и эксклюзивным представителем в России одного из крупнейших производителей разъемов военного и аэрокосмического назначения «JONHON», а так же официальным дистрибьютором и эксклюзивным представителем в России производителя высокотехнологичных и надежных решений для передачи СВЧ сигналов «FORSTAR».

JONHON

«JONHON» (основан в 1970 г.)

Разъемы специального, военного и аэрокосмического назначения:

(Применяются в военной, авиационной, аэрокосмической, морской, железнодорожной, горно- и нефтедобывающей отраслях промышленности)

«FORSTAR» (основан в 1998 г.)

ВЧ соединители, коаксиальные кабели,
кабельные сборки и микроволновые компоненты:

(Применяются в телекоммуникациях гражданского и специального назначения, в средствах связи, РЛС, а так же военной, авиационной и аэрокосмической отраслях промышленности).
