

TWO IN ONE COMBICON Headers for Through Hole Reflow Processes, 5.08 mm Pitch

With the "TWO IN ONE" solution for COMBICON THR pin strips, it is now possible to have components with a high number of positions, i.e. 12 - 24. The THR pin strip is assembled on the PCB from two segments. The inner side panels have not been added to the segments. This makes room for the housings to be mounted and aligned without contact. After reflow soldering, one has the same properties as with single section pin strips, i.e. plugging remains as convenient as before.

All pin strips are made of high temperature resistant Liquid Crystal Polymer (LCP) and are suitable for use in lead-free solder processes with high peak temperatures.

COMBICON Select

The COMBICON search engine with CAD downloading

COMBICON Select – the printed circuit board connection software supports your workflow from the PCB and housing layout to the ordering process with:

- Systematic and fast selection of products
- Universal Internet aided engineering with extensive CAD downloading
- Easy-to-use e-shopping functions.

TWO IN ONE COMBICON headers, taped, 5.08 mm pitch, horizontal and vertical designs

With the "TWO IN ONE" solution for COMBICON THR pin strips, it is now possible to have components with a high number of positions, i.e. 12 - 24. Packaging in accordance with modern industrial standards, particularly tape widths of 56 to 88 mm, remains unchanged. The same processing equipment and familiar requirements for the mounting process, as already apply for pin strips with a low number of positions, facilitate integration in existing production processes.

The THR pin strip is assembled on the PCB from two segments. Each segment is packaged in a tape. The inner side panels have not been added to the segments. This makes room for the housings to be mounted and aligned without contact. After reflow soldering, one has the same properties as with single section pin strips, i.e. plugging remains as convenient as before.

All pin strips are made of high temperature resistant Liquid Crystal Polymer (LCP) and are suitable for use in lead-free solder processes with high peak temperatures.

CCA 2,5/...-GL(R)-5,08P26THRR... 5.08 mm Pitch

Note:

COMBICON plug connectors may only be actuated in the no-load condition. If smaller loads need to be switched for operational reasons, experimental values are available on request.

Компания «Океан Электроники» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Поставка оригинальных импортных электронных компонентов напрямую с производств Америки, Европы и Азии, а так же с крупнейших складов мира;
- Широкая линейка поставок активных и пассивных импортных электронных компонентов (более 30 млн. наименований);
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Помощь Конструкторского Отдела и консультации квалифицированных инженеров;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Поставка электронных компонентов под контролем ВП;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- При необходимости вся продукция военного и аэрокосмического назначения проходит испытания и сертификацию в лаборатории (по согласованию с заказчиком);
- Поставка специализированных компонентов военного и аэрокосмического уровня качества (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Actel, Aeroflex, Peregrine, VPT, Syfer, Eurofarad, Texas Instruments, MS Kennedy, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Компания «Океан Электроники» является официальным дистрибьютором и эксклюзивным представителем в России одного из крупнейших производителей разъемов военного и аэрокосмического назначения «JONHON», а так же официальным дистрибьютором и эксклюзивным представителем в России производителя высокотехнологичных и надежных решений для передачи СВЧ сигналов «FORSTAR».

JONHON

«JONHON» (основан в 1970 г.)

Разъемы специального, военного и аэрокосмического назначения:

(Применяются в военной, авиационной, аэрокосмической, морской, железнодорожной, горно- и нефтедобывающей отраслях промышленности)

«FORSTAR» (основан в 1998 г.)

ВЧ соединители, коаксиальные кабели, кабельные сборки и микроволновые компоненты:

(Применяются в телекоммуникациях гражданского и специального назначения, в средствах связи, РЛС, а так же военной, авиационной и аэрокосмической отраслях промышленности).
