## Introduction

### Product Facts

- Differential pair density up to 80 pairs per linear inch
- Broad-edge-coupled, differential-pair system
- PCB routing complexity and costs are reduced by using 1.90 mm by 1.35 mm (.075" by .053") grid on backplane and daughter card
- Offers flexibility and advanced mechanical and electrical performance with two compliant-pin attach options
- Inline staggered, bifurcated contact beams in daughter card interface provides improved mating performance

### Industry Applications

- Telecommunications equipment
  - Hubs, routers, switches
- Central office, cellular infrastructure and multi-platform service (DSL, Cable Data) systems
- Data networking equipment
  - Servers
  - Storage
- Test and measurement equipment
- Medical diagnostic equipment

TE Connectivity offers a variety of backplane/midplane solutions to meet the demand for increased network bandwidth and advanced technology. Each solution is designed for high performance, increased density and compatibility with industry-standard interfaces. TE provides a user-friendly transition between the PCB-mounted connector and the backplane/midplane. TE has extensive knowledge and expertise on high-speed interface design. Your specific needs can be customized and transformed into new manufacturable designs.

The IMPACT backplane connector and cable system from TE pushes the speed and density envelope to meet the growing demands of next-generation telecommunication and data net-

working equipment; the system is available in 2-6 pair configurations with a complete range of guidance and power-solution options plus right-angle cable assemblies.

The IMPACT system is available in two compliant-pin design options on both daughter card and backplane connectors, providing customers ultimate flexibility to optimize their designs for advanced mechanical and electrical performance. The IMPACT system's mating interface provides in-line staggered, bifurcated contacts that provide 2 points of contact for the long-term reliability performance and built-in, ground-signal sequencing. This reduces the average mating force per connector to improve the mechanical mating performance of the system.

### Material and Finish

- Signal Contact** — High Performance Copper (Cu) Alloy
- Ground Contact** — High Performance Copper (Cu) Alloy
- Housing** — Liquid Crystal Polymer, UL 94V-0

### Platings

- Contact Area** — 0.76  $\mu\text{m}$  (30  $\mu\text{m}$ ) Gold (Au) min.
- Solder Tail Area** — Tin (Sn) or Tin/Lead (Sn/Pb)
- Underplating** — Nickel (Ni)
- PCB Thickness** — 1.60 mm (.062") typical

### Ratings

- Temperature Range** — -55°C to 85°C max.
- Current Rating** — 0.75 A per pin max.
- Durability** — 200 cycles
- Operating Voltage** — 30 VAC RMS/DC max.
- Mating Force** — 0.30 N (9.066 lb) max. per pin
- Compliant Pin Retention Force to PCB** — 3.56 N (.80 lb) per compliant pin average min.
- Compliant Pin Insertion Force to PCB** — 26.7 N (6.0 lb) max. per contact
- Signal Integrity**
- Insulation Resistance** — 10,000 Megohms min.

Компания «Океан Электроники» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Поставка оригинальных импортных электронных компонентов напрямую с производств Америки, Европы и Азии, а так же с крупнейших складов мира;
- Широкая линейка поставок активных и пассивных импортных электронных компонентов (более 30 млн. наименований);
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Помощь Конструкторского Отдела и консультации квалифицированных инженеров;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Поставка электронных компонентов под контролем ВП;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- При необходимости вся продукция военного и аэрокосмического назначения проходит испытания и сертификацию в лаборатории (по согласованию с заказчиком);
- Поставка специализированных компонентов военного и аэрокосмического уровня качества (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Actel, Aeroflex, Peregrine, VPT, Syfer, Eurofarad, Texas Instruments, MS Kennedy, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Компания «Океан Электроники» является официальным дистрибьютором и эксклюзивным представителем в России одного из крупнейших производителей разъемов военного и аэрокосмического назначения «JONHON», а так же официальным дистрибьютором и эксклюзивным представителем в России производителя высокотехнологичных и надежных решений для передачи СВЧ сигналов «FORSTAR».

## JONHON

«JONHON» (основан в 1970 г.)

Разъемы специального, военного и аэрокосмического назначения:

(Применяются в военной, авиационной, аэрокосмической, морской, железнодорожной, горно- и нефтедобывающей отраслях промышленности)

«FORSTAR» (основан в 1998 г.)

ВЧ соединители, коаксиальные кабели, кабельные сборки и микроволновые компоненты:

(Применяются в телекоммуникациях гражданского и специального назначения, в средствах связи, РЛС, а так же военной, авиационной и аэрокосмической отраслях промышленности).
