Notes

Rose+Bopla's **Aluform Enclosures** are stylish, aluminum die-cast housings specifically designed for rugged electronic instrumentation applications.

Aluform Watertight Enclosures

Aluform enclosures feature an attractive beveled lid and are designed with a lower profile height than Rose+Bopla's standard 01 series housings. Internal mounting bosses in the base and lid provide convenience for component installation. New hinges, and one-piece external brackets are available as options.

An Aluform enclosure includes a powdercoat painted die-cast base and lid, captive stainless steel lid screws and a polyurethane gasket as the standard configuration. The unpainted version comes with a neoprene gasket.
