

2 W Conductive Plastic  
Potentiometers  
**380 Series, RV4 Series, 485 Series,  
53C Series, 385 Series**

# Conductive Plastic Potentiometers

Potentiometers convert rotary motion into a change of resistance, supplying a smooth transition of voltage or current levels. The resulting voltage output may be used to control position transducers in a wide variety of potential applications.

The five series listed below are all 2 W plastic potentiometers and are available in resistances from 100 Ohm to 5 MOhm, inclusive. Available tapers include linear, log, and antilog to meet a wide range of application requirements. These single turn devices have a 6,35 mm [0.250 in] diameter shaft that is available in a range of lengths. Most shafts are nickel-plated brass. Most configurations have a standard 3/8-32 NEF-2A bushing; a high torque version is also available. Termination types are solder lug (with or without a center tap), PC pin or fast-on, all are solder-dipped. Custom designs are available upon request.

- **380 Series:** 2 W conductive plastic potentiometer offering low contact resistance variation and a long rotational life
- **RV4 Series:** Military version of the 380 Series; meets MIL-R-94 requirements (non RoHS compliant)
- **485 Series:** Custom version of the 380 Series
- **53C Series:** Cost-effective version of the 380 Series
- **385 Series:** Custom version of the 53C Series

## Key Features and Benefits

- **Cost-effective:** Supplies good performance at a reasonable price
- **Wide range of resistance values (100 Ohm to 5 MOhm, inclusive):** Promotes flexibility in the applications
- **Wide variety of tapers:** Creates flexibility in output signal profile, allowing use in a wide variety of applications

## Potential Applications

### INDUSTRIAL/COMMERCIAL

- Audio and visual equipment (e.g., musical instruments, sound mixers, projectors, amplifiers)
- Foot pedal controls (e.g., guitars, sewing machines, woodworking equipment)
- Machine controls (e.g., joysticks)
- Welding equipment (e.g., MIG wire feed, foot pedal controls, adjustment knobs)

### TRANSPORTATION

- Foot pedal controls (e.g., golf carts)
- Gear shifter, joystick, and throttle position (e.g., construction/agricultural vehicles)

# General Specifications

**Table 1. Electrical Specifications**

Characteristic	380 Series	RV4 Series	485 Series	53C Series	385 Series
Maximum working voltage: linear tapers log, reverse log tapers			500 Vdc 350 Vdc		
Dielectric strength	1000 Vac for 60 s at 1 mPa [atm], 450 Vac for 60 s at 11,5 kPa [3.4 inHg]				
Power rating	2 W at 70 °C [158 °F], derated to 120 °C [248 °F]				
Taper	See Order Guides under each series				
CRV <sup>1</sup> : linear tapers log, reverse log tapers			3% max. total resistance 3% max. total resistance		
Resistance	100 Ohm to 5 MOhm, inclusive. See individual Order Guides under each series.				
Resistance tolerance	See Order Guides under each series.				
End resistance	See Order Guides under each series.				
Linearity	±5%				
Electrical rotation	See Order Guides under each series.				

<sup>1</sup>Contact resistance variation is the maximum momentary change in contact resistance that occurs when the wiper is moved from one location to another location. The larger this change, the more difficult it is to set the trimmer potentiometer and the more unstable the long term setting will be.

**Table 2. Mechanical Specifications**

Characteristic	380 Series	RV4 Series	485 Series	53C Series	385 Series

### General 380 Series, RV4 Series, 485 Series, 53C Series, 385 Series Terminology

The diagram illustrates the assembly components for the potentiometer. It shows a cross-section of the potentiometer with various parts labeled: Jam nut, Mounting nut, Lock washer, O-ring, Locating pin, Shaft, Bushing, and Termination. The mounting hardware (Jam nut, Mounting nut, Lock washer, and O-ring) is shown separately above the main assembly diagram.

### **⚠ WARNING**

#### **PERSONAL INJURY**

DO NOT USE these products as safety or emergency stop devices or in any other application where failure of the product could result in personal injury.

**Failure to comply with these instructions could result in death or serious injury.**

### **⚠ WARNING**

#### **MISUSE OF DOCUMENTATION**

- The information presented in this product sheet is for reference only. Do not use this document as a product installation guide.
- Complete installation, operation, and maintenance information is provided in the instructions supplied with each product.

**Failure to comply with these instructions could result in death or serious injury.**

## WARRANTY/REMEDY

Honeywell warrants goods of its manufacture as being free of defective materials and faulty workmanship. Honeywell's standard product warranty applies unless agreed to otherwise by Honeywell in writing; please refer to your order acknowledgement or consult your local sales office for specific warranty details. If warranted goods are returned to Honeywell during the period of coverage, Honeywell will repair or replace, at its option, without charge those items it finds defective. **The foregoing is buyer's sole remedy and is in lieu of all other warranties, expressed or implied, including those of merchantability and fitness for a particular purpose. In no event shall Honeywell be liable for consequential, special, or indirect damages.**

While we provide application assistance personally, through our literature and the Honeywell website, it is up to the customer to determine the suitability of the product in the application.

Specifications may change without notice. The information we supply is believed to be accurate and reliable as of this printing. However, we assume no responsibility for its use.

# Honeywell

Компания «Океан Электроники» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Поставка оригинальных импортных электронных компонентов напрямую с производств Америки, Европы и Азии, а так же с крупнейших складов мира;
- Широкая линейка поставок активных и пассивных импортных электронных компонентов (более 30 млн. наименований);
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Помощь Конструкторского Отдела и консультации квалифицированных инженеров;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Поставка электронных компонентов под контролем ВП;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- При необходимости вся продукция военного и аэрокосмического назначения проходит испытания и сертификацию в лаборатории (по согласованию с заказчиком);
- Поставка специализированных компонентов военного и аэрокосмического уровня качества (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Actel, Aeroflex, Peregrine, VPT, Syfer, Eurofarad, Texas Instruments, MS Kennedy, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Компания «Океан Электроники» является официальным дистрибьютором и эксклюзивным представителем в России одного из крупнейших производителей разъемов военного и аэрокосмического назначения «JONHON», а так же официальным дистрибьютором и эксклюзивным представителем в России производителя высокотехнологичных и надежных решений для передачи СВЧ сигналов «FORSTAR».

## JONHON

«JONHON» (основан в 1970 г.)

Разъемы специального, военного и аэрокосмического назначения:

(Применяются в военной, авиационной, аэрокосмической, морской, железнодорожной, горно- и нефтедобывающей отраслях промышленности)

«FORSTAR» (основан в 1998 г.)

ВЧ соединители, коаксиальные кабели, кабельные сборки и микроволновые компоненты:

(Применяются в телекоммуникациях гражданского и специального назначения, в средствах связи, РЛС, а так же военной, авиационной и аэрокосмической отраслях промышленности).
