

# G9TB

AC Power Latching Relay

## 120 A Compact and high power latching relay

- High power switching: 120 A, 276 VAC
- Compact size: 37 mm × 43 mm × 22 mm
- Low temperature-rise
- High overcurrent capability, conforming to IEC62055-31 UC3

RoHS Compliant

**NEW**

### Model Number Structure

G9TB-□ 1 A □ - E

| TW: Welding terminals      |                    |                 |

### Application Examples

- Smart Meter
- PV Inverter
- Lighting control
- EV Charger

### Ordering Information

Classification	Contact Form	Terminal Shape	Enclosure rating	Model	Rated coil voltage	Minimum packing unit
Single coil	SPST-NO	M8 securing screw	Flux protection	G9TB-U1ATH-E	12 VDC	25 pcs/tray
		Welding terminals		G9TB-U1ATW-E		
Double coils		M8 securing screw		G9TB-K1ATH-E	12 VDC	
		Welding terminals		G9TB-K1ATW-E		

Note. When ordering, add the rated coil voltage to the model number.

Example: G9TB-U1ATH-E DC12

Rated coil voltage

However, the notation of the coil voltage on the product case as well as on the packing will be marked as [ ] VDC.

### Ratings

#### ● Coil

##### Single-winding Latching Type

Item		Rated current (mA)	Coil resistance (Ω)	Must set voltage	Must reset voltage	Max. voltage	Power consumption	
Rated Voltage (V)				% of rated voltage				Set coil (W)
DC	12	225	53.3	80% max.	80% max.	110% max.	Approx. 2.7	

##### Double-winding Latching Type

Item		Rated current (mA)		Coil resistance (Ω)		Must set voltage	Must reset voltage	Max. voltage	Power consumption	
Rated Voltage (V)		Set coil	Reset coil	Set coil	Reset coil	% of rated voltage			Set coil (W)	Reset coil (W)
DC	12	451	451	26.6	26.6	80% max.	80% max.	110% max.	Approx. 5.4	Approx. 5.4

Note 1. The rated current and coil resistance were measured at a coil temperature of 23°C with tolerances of ± 10%.

Note 2. The operating characteristics are measured at a coil temperature of 23°C.

Note 3. The maximum permissible voltage is the maximum value of the fluctuation range for the Relay coil operating power supply and was measured at an ambient temperature of 23°C.

#### ● Contacts

Item	Model Load	G9TB-U1A□ -E/G9TB-K1A□ -E	
		Resistive load	Inductive load (PF=0.5)
Contact type		SPST-NO	
Contact material		Ag Alloy	
Rated load		120 A at 276 VAC	100 A at 276 VAC
Rated carry current		120 A	
Max. switching voltage		276 VAC	
Max. switching current		120 A	100 A

## Characteristics

Item		G9TB-U1A□-E	G9TB-K1A□-E
Contact resistance *1		0.4 mΩ max.	
Set time *2		25 ms max.	20 ms max.
Reset time *2		25 ms max.	20 ms max.
Minimum pulse width		100 ms	
Maximum pulse width		1,000 ms	
Insulation resistance *3		1,000 MΩ min.	
Dielectric strength	Between coil and contacts	4,000 VAC, 50/60 Hz for 1 min	
	Between contacts of the same polarity	2,000 VAC, 50/60 Hz for 1 min	
Impulse withstand voltage	Between coil and contacts	8 kV	
Vibration resistance	Destruction	10 to 55 to 10 Hz, 0.75 mm single amplitude (1.5 mm double amplitude)	
	Malfunction	10 to 55 to 10 Hz, 0.75 mm single amplitude (1.5 mm double amplitude)	
Shock resistance	Destruction	1,000 m/s <sup>2</sup>	
	Malfunction	100 m/s <sup>2</sup>	
Durability	Mechanical	100,000 operations min. (at 7,200 operations/h)	
	Electrical *4	10,000 operations typical, resistive load 120 A, 276 VAC (operation: ON for 10 sec, OFF for 20 sec)	
		5,000 operations, resistive load 100 A, 276 VAC and then 5,000 operations, inductive load (PF=0.5) 100 A, 276 VAC (operation: ON for 10 sec, OFF for 20 sec) *5	
Ambient operating temperature		-40 to 85°C (with no icing or condensation)	
Ambient operating humidity		5 to 85%	
Weight		Approx. 70 g	

Note. The values given above are initial values.

\*1. Measurement conditions: 24 VDC, 1 A, voltage drop method.

\*2. Measurement conditions: Rated operating voltage applied, not including contact bounce.  
Ambient temperature: 23°C

\*3. Measurement conditions: The insulation resistance was measured with a 500 VDC megohm meter at the same locations as the dielectric strength was measured.

\*4. Contact your OMRON sales representative for Electrical Durability technical data.

\*5. The characteristic meets IEC62055-31 test requirement.

## Dimensions

(Unit: mm)

Check carefully the coil polarity of the Relay.

**G9TB-K1ATH-E**

**Terminal arrangement/Internal Connections  
(TOP VIEW)**

Check carefully the coil polarity of the Relay.

G9TB-K1ATW-E

Note 1. Relay is delivered as "set" status unless specified otherwise. However, the status may change due to the shock from transportation or mounting operations. Therefore, it is recommended the relay should be set to the expected status via a power supply before being used.

Note 2. In order to maintain "set" or "reset" status, the energizing voltage to coil & the pulse width shouldn't lower then the rated value.

Note 3. Do not energize both of set and reset coil simultaneously.

Note 4. Energizing time longer than 1,000 ms should be avoided.

G9TB-K1A□ -E

## Safety Precautions

- Please refer to "PCB Relays Common Precautions" for correct use.

### Correct Use

#### ●Installation

- The relay contacts are polarized. Incorrect wiring may cause a failure to break the circuit. Wire the Relay with care.
- Install the Relays in locations that are as dry as possible and have as little dust, dirt, and harmful gas.
- Using the Relay under high temperature, high humidity, or harmful gas may deteriorate its performance characteristics due to condensation or corrosive materials, resulting in failure or burn damage to the Relay.

#### ●Wiring

- Be sure to tighten all screws to the appropriate torque given below.
- Loose screws may result in burning due to abnormal heat generation during energization.
- M8 screws : 8.82 to 9.80 N·m
- Use a spring washer in order to prevent deformation and it from loosening.
- Allow suitable slack on leads when wiring, and do not apply excessive force to the terminals.

#### ●Relay Service Life

- The electrical durability of these Relays is specified as the number of load switching operations under a resistive load and OMRON-specified standard testing conditions.

The coil drive circuit, ambient environment, switching frequency, or load conditions (e.g., inductive load or capacitor load) may reduce the service life and possibly lead to failure to break. Always confirm the service life in the actual equipment.

• Application examples provided in this document are for reference only. In actual applications, confirm equipment functions and safety before using the product.  
 • Consult your OMRON representative before using the product under conditions which are not described in the manual or applying the product to nuclear control systems, railroad systems, aviation systems, vehicles, combustion systems, medical equipment, amusement machines, safety equipment, and other systems or equipment that may have a serious influence on lives and property if used improperly. Make sure that the ratings and performance characteristics of the product provide a margin of safety for the system or equipment, and be sure to provide the system or equipment with double safety mechanisms.

**Note: Do not use this document to operate the Unit.**

Компания «Океан Электроники» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Поставка оригинальных импортных электронных компонентов напрямую с производств Америки, Европы и Азии, а так же с крупнейших складов мира;
- Широкая линейка поставок активных и пассивных импортных электронных компонентов (более 30 млн. наименований);
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Помощь Конструкторского Отдела и консультации квалифицированных инженеров;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Поставка электронных компонентов под контролем ВП;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- При необходимости вся продукция военного и аэрокосмического назначения проходит испытания и сертификацию в лаборатории (по согласованию с заказчиком);
- Поставка специализированных компонентов военного и аэрокосмического уровня качества (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Actel, Aeroflex, Peregrine, VPT, Syfer, Eurofarad, Texas Instruments, MS Kennedy, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Компания «Океан Электроники» является официальным дистрибьютором и эксклюзивным представителем в России одного из крупнейших производителей разъемов военного и аэрокосмического назначения «JONHON», а так же официальным дистрибьютором и эксклюзивным представителем в России производителя высокотехнологичных и надежных решений для передачи СВЧ сигналов «FORSTAR».

## JONHON

«JONHON» (основан в 1970 г.)

Разъемы специального, военного и аэрокосмического назначения:

(Применяются в военной, авиационной, аэрокосмической, морской, железнодорожной, горно- и нефтедобывающей отраслях промышленности)

«FORSTAR» (основан в 1998 г.)

ВЧ соединители, коаксиальные кабели,  
кабельные сборки и микроволновые компоненты:

(Применяются в телекоммуникациях гражданского и специального назначения, в средствах связи, РЛС, а так же военной, авиационной и аэрокосмической отраслях промышленности).
