

# ADAPTERS

## BETWEEN-SERIES COAXIAL ADAPTERS

RADIALL'S between-series adapters are used to make efficient low loss transitions between different series of coaxial connectors.

They are widely used in laboratory test applications and in system equipment applications where different connector types must be mated.

All RADIALL adapters are designed to offer the lowest VSWR attainable across the frequency range of the connectors involved.

The following selection guide is provided to help the user find the corresponding page in this catalog for the proper between-series adapter required.

## CONTENTS

## SELECTION GUIDE

Select one of the connector interface in the left hand column and line up with the other connector interface as shown in the row across the top. The intersection of these two will give the appropriate page number.

		APC7	SMA		SMA3,5		SMB		SMC		SSMA		SSMB		BNC50Ω		BNC75Ω

- Please note that when « plug » or « jack » (P - J) terminology is used, it refers to the connector's style of each adapter's end.
- All adapters interfaces meet or exceed the requirements of MIL-STD-348.
- For all in-series adapters, please refer to the Radiall connector catalog for specific series.

Компания «Океан Электроники» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Поставка оригинальных импортных электронных компонентов напрямую с производств Америки, Европы и Азии, а так же с крупнейших складов мира;
- Широкая линейка поставок активных и пассивных импортных электронных компонентов (более 30 млн. наименований);
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Помощь Конструкторского Отдела и консультации квалифицированных инженеров;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Поставка электронных компонентов под контролем ВП;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- При необходимости вся продукция военного и аэрокосмического назначения проходит испытания и сертификацию в лаборатории (по согласованию с заказчиком);
- Поставка специализированных компонентов военного и аэрокосмического уровня качества (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Actel, Aeroflex, Peregrine, VPT, Syfer, Eurofarad, Texas Instruments, MS Kennedy, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Компания «Океан Электроники» является официальным дистрибьютором и эксклюзивным представителем в России одного из крупнейших производителей разъемов военного и аэрокосмического назначения «JONHON», а так же официальным дистрибьютором и эксклюзивным представителем в России производителя высокотехнологичных и надежных решений для передачи СВЧ сигналов «FORSTAR».

## JONHON

«JONHON» (основан в 1970 г.)

Разъемы специального, военного и аэрокосмического назначения:

(Применяются в военной, авиационной, аэрокосмической, морской, железнодорожной, горно- и нефтедобывающей отраслях промышленности)

«FORSTAR» (основан в 1998 г.)

ВЧ соединители, коаксиальные кабели, кабельные сборки и микроволновые компоненты:

(Применяются в телекоммуникациях гражданского и специального назначения, в средствах связи, РЛС, а так же военной, авиационной и аэрокосмической отраслях промышленности).
