

## Features

- Virtually infinite electrical circuit isolation
- Sealed for board wash
- Metal or plastic shaft options
- RoHS compliant\*

## Model 96 - 5/8 " Square Sealed Single-Turn Panel Control

| Initial Electrical Characteristics <sup>1</sup>                                   | Conductive Plastic Element                     | Cermet Element                        |
|-----------------------------------------------------------------------------------|------------------------------------------------|---------------------------------------|
| Standard Resistance Range                                                         |                                                |                                       |
| Linear Tapers (A, B, E, & H).....                                                 | (B & E) 1 K ohms to 1 megohm.....              | (A & H) 100 ohms to 1 megohm          |
| Audio Tapers (C, D, F, G, S, & T) .....                                           | (D,G,S, & T) 1 K ohms to 1 megohm.....         | (C & F) 1 K ohms to 1 megohm          |
| Total Resistance Tolerance.....                                                   | 10 % or 20 % .....                             | 5% or 10%                             |
| Independent Linearity.....                                                        | ±5 % .....                                     | ±5 %                                  |
| Absolute Minimum Resistance.....                                                  | 2 ohms maximum.....                            | 2 ohms maximum                        |
| Effective Electrical Angle .....                                                  | (Linear tapers) 240 ° ± 5 ° .....              | (Linear tapers) 240 ° ± 6 °           |
|                                                                                   | (Audio tapers) 225 ° ± 5 ° .....               | (Audio tapers) 225 ° ± 6 °            |
| Contact Resistance Variation .....                                                | ±1 % .....                                     | ±1 % or 3 ohms (whichever is greater) |
| Dielectric Withstanding Voltage (MIL-STD-202, Method 301)                         |                                                |                                       |
| Sea Level .....                                                                   | 1,500 VAC minimum.....                         | 1,500 VAC minimum                     |
| 70,000 Feet .....                                                                 | 500 VAC minimum.....                           | 500 VAC minimum                       |
| Insulation Resistance (500 VDC) .....                                             | 1,000 megohms minimum.....                     | 1,000 megohms minimum                 |
| Power Rating (Voltage Limited By Power Dissipation or 350 VAC, Whichever Is Less) |                                                |                                       |
| +70 °C Single Section Assembly .....                                              | (Linear tapers) 1 watt.....                    | (Linear tapers) 2 watts               |
|                                                                                   | (Audio tapers) 0.5 watt .....                  | (Audio tapers) 1 watt                 |
| +125 °C.....                                                                      | 0 watt.....                                    | 0 watt                                |
| Theoretical Resolution.....                                                       | Essentially infinite .....                     | Essentially infinite                  |
| Environmental Characteristics <sup>1</sup>                                        |                                                |                                       |
| Operating Temperature Range .....                                                 | -40 °C to +125 °C .....                        | -40 °C to +125 °C                     |
| Storage Temperature Range.....                                                    | -55 °C to +125 °C .....                        | -55 °C to +125 °C                     |
| Temperature Coefficient Over Storage                                              |                                                |                                       |
| Temperature Range.....                                                            | ±1,000 ppm/°C.....                             | ±150 ppm/°C                           |
| Vibration (Single Section).....                                                   | 15 G .....                                     | 15 G                                  |
| Total Resistance Shift.....                                                       | ±2 % maximum.....                              | ±2 % maximum                          |
| Voltage Ratio Shift.....                                                          | ±5 % maximum.....                              | ±5 % maximum                          |
| Shock (Single Section).....                                                       | 30 G.....                                      | 30 G                                  |
| Total Resistance Shift.....                                                       | ±2 % maximum.....                              | ±2 % maximum                          |
| Voltage Ratio Shift.....                                                          | ±5 % maximum.....                              | ±5 % maximum                          |
| Load Life .....                                                                   | 1,000 hours .....                              | 1,000 hours                           |
| Total Resistance Shift.....                                                       | ±10 % maximum.....                             | ±5 % maximum                          |
| Rotational Life (No Load) .....                                                   | 100,000 cycles .....                           | 100,000 cycles                        |
| Total Resistance Shift.....                                                       | (Linear tapers) 10 ohms or ±15 % TRS max. .... | (All tapers) ±5 % TRS max.            |
|                                                                                   | (whichever is greater)                         |                                       |
|                                                                                   | (Audio tapers) ±20 % maximum                   |                                       |
| Contact Resistance Variation                                                      |                                                |                                       |
| @ 50,000 cycles .....                                                             | (Linear tapers) ±2 % .....                     | ±2 %                                  |
|                                                                                   | (Audio tapers) ±3 % .....                      | ±3 %                                  |
| Moisture Resistance (MIL-STD-202, Method 103, Condition B)                        |                                                |                                       |
| Total Resistance Shift.....                                                       | (Linear tapers) ±10 % TRS maximum .....        | (All tapers) ±5 % TRS maximum         |
|                                                                                   | (Audio tapers) ±20 % TRS maximum               |                                       |
| Insulation Resistance (500 VDC).....                                              | 100 megohms minimum .....                      | 100 megohms minimum                   |
| IP Rating.....                                                                    | IP 65 .....                                    | IP 65                                 |

## Model 96 - 5/8 " Square Sealed Single-Turn Panel Control

**BOURNS®**

### Mechanical Characteristics<sup>1</sup>

|                                         |                                                                                                                                                                            |
|-----------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Stop Strength (1/4 " D shaft)           | 45.19 N-cm (4 lb.-in.)                                                                                                                                                     |
| (1/8 " D shaft)                         | 33.89 N-cm (3 lb.-in.)                                                                                                                                                     |
| Mechanical Angle                        | 300 ° ±5 °                                                                                                                                                                 |
| Torque                                  |                                                                                                                                                                            |
| Starting                                | 0.3 max. above average running torque                                                                                                                                      |
| Running Torque                          |                                                                                                                                                                            |
| Single or Dual Section (A & R Bushings) | 0.21 to 1.06 N-cm (0.3 to 1.5 oz.-in.)                                                                                                                                     |
| Single or Dual Section (C & U Bushings) | 0.14 to 1.06 N-cm (0.2 to 1.5 oz.-in.)                                                                                                                                     |
| Mounting                                | 1.7-2.0 N-m (15-18 lb.-in.) maximum                                                                                                                                        |
| Variation                               | 0.35 N-cm (0.5 oz.-in.) maximum in 45 ° shaft travel                                                                                                                       |
| Weight (Single Section, Metal Bushing)  | 12.7 grams nominal                                                                                                                                                         |
| Terminals                               | Printed circuit terminals, J-Hooks or solder lugs                                                                                                                          |
| Soldering Condition                     | Recommended hand soldering using Sn95/Ag5 no clean solder, 0.025 " wire diameter.<br>Maximum temperature 399 °C (750 °F) for 3 seconds. Immersion wash is not recommended. |
| Marking                                 | Manufacturer's trademark, date code, resistance, manufacturer's part number                                                                                                |
| Hardware                                | One lockwasher and one mounting nut is shipped with each potentiometer, except where noted in the part number.                                                             |

NOTE: Performance specifications do not apply to units subjected to printed circuit board immersion cleaning processes.

<sup>1</sup>At room ambient: +25 °C nominal and 50 % relative humidity nominal, except as noted.

Компания «Океан Электроники» предлагает заключение долгосрочных отношений при поставках импортных электронных компонентов на взаимовыгодных условиях!

Наши преимущества:

- Поставка оригинальных импортных электронных компонентов напрямую с производств Америки, Европы и Азии, а так же с крупнейших складов мира;
- Широкая линейка поставок активных и пассивных импортных электронных компонентов (более 30 млн. наименований);
- Поставка сложных, дефицитных, либо снятых с производства позиций;
- Оперативные сроки поставки под заказ (от 5 рабочих дней);
- Экспресс доставка в любую точку России;
- Помощь Конструкторского Отдела и консультации квалифицированных инженеров;
- Техническая поддержка проекта, помощь в подборе аналогов, поставка прототипов;
- Поставка электронных компонентов под контролем ВП;
- Система менеджмента качества сертифицирована по Международному стандарту ISO 9001;
- При необходимости вся продукция военного и аэрокосмического назначения проходит испытания и сертификацию в лаборатории (по согласованию с заказчиком);
- Поставка специализированных компонентов военного и аэрокосмического уровня качества (Xilinx, Altera, Analog Devices, Intersil, Interpoint, Microsemi, Actel, Aeroflex, Peregrine, VPT, Syfer, Eurofarad, Texas Instruments, MS Kennedy, Miteq, Cobham, E2V, MA-COM, Hittite, Mini-Circuits, General Dynamics и др.);

Компания «Океан Электроники» является официальным дистрибьютором и эксклюзивным представителем в России одного из крупнейших производителей разъемов военного и аэрокосмического назначения «JONHON», а так же официальным дистрибьютором и эксклюзивным представителем в России производителя высокотехнологичных и надежных решений для передачи СВЧ сигналов «FORSTAR».

## JONHON

«JONHON» (основан в 1970 г.)

Разъемы специального, военного и аэрокосмического назначения:

(Применяются в военной, авиационной, аэрокосмической, морской, железнодорожной, горно- и нефтедобывающей отраслях промышленности)

«FORSTAR» (основан в 1998 г.)

ВЧ соединители, коаксиальные кабели,  
кабельные сборки и микроволновые компоненты:

(Применяются в телекоммуникациях гражданского и специального назначения, в средствах связи, РЛС, а так же военной, авиационной и аэрокосмической отраслях промышленности).
